

## **APL Logistics VASCOR Automotive wins Best Emerging Player award in India**

**Singapore, 2 April, 2015:** APL Logistics VASCOR Automotive, a specialist provider of automotive logistics services in India, has been named “Best Emerging Player” at the Supply Chain Logistics & Excellence Awards 2015 in New Delhi.

Organised by the Indian Chamber of Commerce and endorsed by professional services provider Deloitte, the award recognises APL Logistics VASCOR Automotive for its innovative and reliable multi-modal logistics solutions for the distribution of finished vehicles across India. Its panel of judges include former senior government officials in India.

“It is an honour to receive this recognition, and we will continue to work relentlessly to offer the right solutions to solve the India automotive market’s unique supply chain challenges,” said Bill Villalon, Global Vertical Leader, Automotive – SVP for APL Logistics and Chairman of the joint venture.

Incorporated in 2012, APL Logistics VASCOR Automotive became the first international 3PL provider to be licensed to operate automotive trains by the Indian Railways a year later. The company successfully launched AutoLinx<sup>SM</sup>, its rail-based solution in India, in November 2014. AutoLinx<sup>SM</sup> uses custom-designed, fully-covered and double-decker rail wagons to distribute finished vehicles across the country.
